### Workshop: Take Charge of the College Admissions Process

Joshua Hirschstein invites a college-bound student and parents for a two hour workshop that provides information, guidance, perspective, and momentum for the competitive college selection and admissions processes. We will address:

- How does one research and gain admittance to the best college options? What makes a “good match”?
- What do colleges seek in applicants, and how can applicants best present themselves to their college choices?
- How much should the student steer the selection/admissions processes, and when should parents or others step in?
- Should students take the SAT or ACT? How vital is the score? What is attractive to colleges in the admissions essay?
- How does “financial reality” impact the process, and what other local and online resources are available?

**Recommended for sophomores and juniors.**

**Fee: \$135.00**

**One-on-one college selection and admissions coaching: \$55/hr**
